

How to find us

We operate at two sites in Gateshead, a few hundred metres apart. Our Head Office where most of our activities take place is at Kingsway. The Queensway site houses our additional production and warehousing facilities.

By Car

The map shows the way to both of Traidcraft's Gateshead sites. The easiest route, from either North or South, is to take the A1, leaving the dual carriageway at the roundabout signposted Team Valley A692 Consett, and follow signs for Team Valley. At the next roundabout turn right on Kingsway, Team Valley.

The Kingsway site is a few hundred yards down the dual carriageway on your right, but you will need to continue past the building and turn back at the next gap in the central reservation.

For the Queensway site you need to continue a little further along Kingsway and turn left into Third Avenue, then right onto Queensway. The building is a few yards down on your right.

Parking

There is limited parking at the front and sides of both sites, with more to the rear of the Kingsway site.

By Train

The nearest major station is Newcastle Central, from where you can take a taxi. There are usually plenty of taxis outside the main exit, and you will need to ask for Traidcraft at Team Valley, specifying Kingsway or Queensway. Alternatively, you could take the Metro to Gateshead Metro/bus interchange, followed by a bus.

By Air

The nearest airport is Newcastle Airport from where you can either take a taxi (20 minutes journey, notwithstanding heavy traffic), or take the Metro to Newcastle Central Station, followed by a taxi (see above) or take the Metro to Gateshead Metro/bus interchange (see below).

By Bus

Buses 94, 95, 96 and 97 leave the Gateshead Metro/bus interchange at regular intervals. The number 94 stops on the Team Valley opposite Traidcraft, and the others stop at the roundabout at the end of Team Valley, just a short walk away. Bus 91 operates between Newcastle Central station and Team Valley, but only during 'rush hour'.
