

I am visiting one of the countries you work in. Is it possible for me to visit your producers there?

The best way to visit Traidcraft's producers is on one of our organised Meet the People Tours. The tours, lasting around two weeks, combine visits to some of Traidcraft's producers with time to take in the sights, sounds and flavours of the countries we work in.

For more information on Traidcraft Meet the People Tours call 0870 444 1774 or visit the Traidcraft website: www.traidcraft-tours.co.uk.

We are sometimes asked for the addresses of producers by individuals planning to travel overseas. We have given this question careful consideration, in order to get a balance between the needs of visitors and of producers.

Visits to suppliers take up their time, which can lead to disruption of business and potential loss of earnings. It may also lead to extra expenses. Since most of our suppliers sell to other fair trade organisations and other buyers, they may get quite a number of business visitors. For this reason, Traidcraft has decided that we cannot give addresses of producers to potential visitors.
