

Fair trade drinks

Choose from a selection of coffees, teas, hot chocolate and fruit juices. We offer a choice of organic, ground and speciality hot beverages, as well as everyday items.

Traidcraft fair trade tea

Tea was the first food product sold by Traidcraft. We have a wide range of fair trade tea, from every day ranges to speciality blends.

Traidcraft fair trade coffee

Our fair trade coffee is sourced from small farmers' co-operatives which are registered with FLO. We supply ground coffee, organic beans and instant coffee.

Traidcraft was one of the companies which set up cafédirect, which was the first Fairtrade product to hit supermarket shelves.

Fair trade hot chocolate

Traidcraft offers fair trade hot chocolate and cocoa products from small scale farmers in the Dominican Republic, Ghana and Malawi.

Fair trade fruit juices

Traidcraft has been working with Gerber Foods since 2000 when we first came into contact with citrus farmers in Cuba, and saw the opportunity to launch a fair trade juice.

The Cuban citrus fruit in Fruit Passion carries the Fairtrade Mark which guarantees farmers a minimum price and an additional premium payment. The premium is used for projects, providing better machinery or irrigation systems or financing other activities, including cultural and recreational facilities.

Traidcraft's role is to visit the farmer co-operatives and people to make good decisions about using the premium in ways that truly benefit the whole community.

Traidcraft also continues to assist Fruit Passion in identifying and working with other producers as they develop new lines.
