

Make a donation

Help to ensure that Traidcraft's vital work in the developing world continues. Together with our local partners overseas, we are working to transform the lives of the poor in developing countries.

25 could train cotton farmers in India in modern organic farming techniques so they increase their income and improve their environment

50 could pay for training to help five more beekeepers improve the quality of their honey

150 could help towards the cost of training a Vietnamese business consultant who could in turn train 30 craft workers to improve their businesses

Where we work

These are examples of the kinds of projects your donation may support. Traidcraft Exchange currently has projects in Kenya, Tanzania, India, Bangladesh, Cambodia, Vietnam and the Philippines.

The people we support
