

School resources

Traidcraft has a selection of downloadable resources catering for a range of ages and subject areas from Geography to RE, English and global citizenship. There are lesson plans, activities and assembly ideas.

Our aim is to help young people develop an understanding of the issues of justice that lie in the world's trading systems and encourage them to take positive actions to support fair trade and other trade justice initiatives.

[Whose shoes?](#)

Traidcraft's new fundraising pack for schools is now available. The pack and the supporting materials help your school support Traidcraft's work in the developing world.

[Presentation about Fairtrade](#)

As Fairtrade becomes more popular, many schools are looking for a simple introduction to show young people how Fairtrade works. This presentation is suitable for Key Stages 2 & 3.

[More lesson plans](#)

These lesson plans cover Key Stages 1-3 and subjects including RE, Citizenship and English.

[Activities and games](#)

These games are designed to be fun, but also to bring understanding about how trade works and why Fairtrade is important.
