

Completed projects

Here you can find information on a selection of our completed projects.

Sometimes the full impact of our work is often not evident until several years into a project, or even until after a project has officially finished. The information on this page gives a clearer view of the long-term impact of our projects.

East Africa

[Improving Livelihoods in the Smallholder Dairy Sector in Kenya](#)

This 3-year project in Kenya worked to protect and improve the livelihoods of small-scale dairy farmers and informal milk traders in Kenya.

South Asia

[More from the Cotton Fields, India](#)

This 3-year project supported farmers to convert to organic, fair trade cotton production and develop rotational crops to address their economic, social and environmental problems.

[Promoting Fair Trade in India \(PROFIT\)](#)

This 3-year project launched a domestic fair trade market in India. With a rapidly growing middle class, this will offer a huge opportunity to poor producers in India.

[Rebuilding livelihoods amongst tsunami affected communities in Kerala](#)

This 3-year project worked to improve the performance of small businesses in Kerala. It had a special focus on small businesses that employed poor people from tsunami affected communities.

[Supporting tsunami affected communities \(women and young people\) in Tamil Nadu](#)

This project worked to reduce poverty and support vulnerable groups devastated by the 2004 tsunami in Tamil Nadu, India, to rebuild their livelihoods.

[Sustainable livelihoods for tea growers and workers, India](#)

This 3-year project empowered small tea growers and workers in India to increase their income and develop sustainable livelihoods.
