Meet the producers

On this tour you will visit Get Paper Industries (GPI) who were established in 1985 as a family business producing handmade paper products from cotton and paper waste. GPI is now a co-operative and workers are involved in all aspects of decision-making through a number of committees.

Wages and working conditions are very good here and GPI has also been involved in social activities, including co-financing a local school, promoting girls' education, AIDS awareness, and environmental activities.
